秩父まつり会館は、毎年12月2日・3日に行われる秩父夜祭に関する笠鉾・屋台を主とした関係資料を展示しています。1F山車展示室に並ぶ笠鉾・屋台は、昭和の名工、坂本才一郎の手によるもので、妙見信仰に因んだ意匠を配しています。2台とも黒漆塗り金具打ち、彫刻は極彩色の本格仕様の見事なものです。2F資料展示コーナーでは、秩父夜祭の歴史、構成、関係資料を展示しています。

Chichibu Matsuri Hall mainly displays exhibits related to the parade of Kasaboko floats and Yatai floats for Chichibu Night Festival held annually on December 2nd and 3rd. The Kasaboko float and Yatai float exhibited on the first floor were constructed by Saiichiro Sakamoto, renowned architect of the Showa Era. The design was inspired by Myoken belief. The two floats are both black lacquer finished with metal fittings, and the representations of these floats are full-scale and reproduce the vivid colors of the actual parade of floats. An exhibition corner on the second floor displays and explains the history, constitution and related exhibits of the Chichibu Night Festival.
